1. Le Melezin – Best winter ski vacation? Try the Aman Hotel Le Melezin in Courchechevel France. A ski in ski out, elegant Alpine retreat with absolutely every possible amenity you can dream of, including helicopter arrival. www.aman.com

2. Hermes – I'm super into the small Musardine leather strap bucket style handbag from Hermes. It has interchangeable interior, drawstring pouches, that come in solid or printed silks that coordinate with the classic scarf patterns. www.hermes.com

3. Saint Louis crystal – The iconic French crystal manufacturer mostly produces formal traditional designs. But their Excess Collection has a modern aesthetic and a large scale that is truly elegant. It comes in various fun colors but I adore the smoked grey crystal. Very wow. www.saint-louis.com

4. Frette – Fox fur bed throw. Winter calls for some opulence and some decadence. And what better than a winter night wrapped in soft, gorgeous fox fur. www.frette.com

5. Minotti Furniture – Known for their clean-lined modern furniture, the new Prince Cord chair by Minotti follows the current casual style defined by great design and quality. Super comfy- it will be your next favorite lounge chair. www.minotti.com

6. Arte & Cuoio Leather - The Helsinki leather basket is a functional, large, modern container with a buckle handle, side top stitching and suede interior. It is hand made in Italy and can be made in any color or type of saddle leather. www.artecuoio.com/en/

7. Mike Dargas – dramatic faces created in mixed media of photography and oil paint give the work of this German born artist a unique and very high impact feel. His hyperealistic pieces can be seen in the Los Angeles gallery of Art Angels. www.artangels.net
